

# Linking External Organizations to TranSystems ProjectWise Web View

---

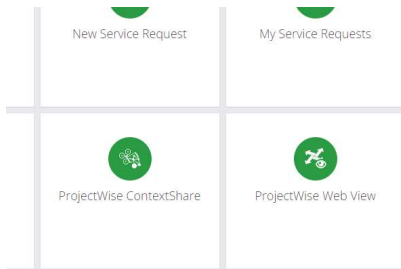

*ProjectWise Web View is a read-only secure technology that allows for PW document access via Google Chrome or Microsoft Edge. If your email address or company has a relationship with Bentley, someone at your company must create the connection to the TranSystems ProjectWise Web View. The connection only needs to be created once per company.*

Connection Setup .....2

# Connection Setup

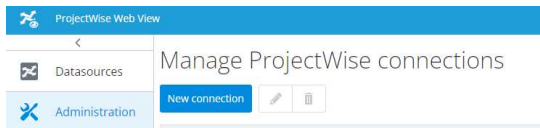

Login to your Bentley web portal >>> <https://connect.bentley.com>

From the Bentley “home” page, Click on ProjectWise Web View icon as shown below. (note the icon location can vary, you may need to scroll down)

From the Web Viewer page Click on the Administration tool option to setup a new connection. TranSystems currently has two ProjectWise datasources which can be setup accordingly as required by your firm.

## Click New Connection

Connection name: TRANSYSCORP-PW1

Server URL: <https://wsg.transystems.com/ws> (Select Get Datasources)

DataSource: TRANSYSCORP-PW1 (Select from list)

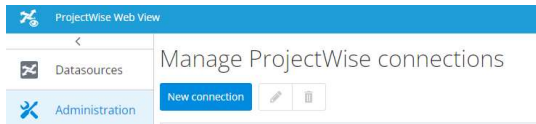

Description: TranSystems On-Prem Projects

A screenshot of a 'Create new connection' dialog box. It has a title bar with 'Create new connection' and a close button 'x'. The form contains the following fields:
 

- Connection name:** A text input field containing 'TRANSYSCORP-PW1'.
- Server URL:** A text input field containing 'https://wsg.transystems.com/ws/'. To the right of the field is a blue button labeled 'Get datasource'.
- DataSource:** A dropdown menu with 'TRANSYSCORP-PW1' selected.
- Description:** A text input field containing 'TranSystems On-Prem Projects'.

 At the bottom right of the dialog are two buttons: 'Connect' (blue) and 'Cancel' (white).

Click New Connection again to setup the second datasource.

Connection name: TRANSYSCORP-PWI-HOSTED

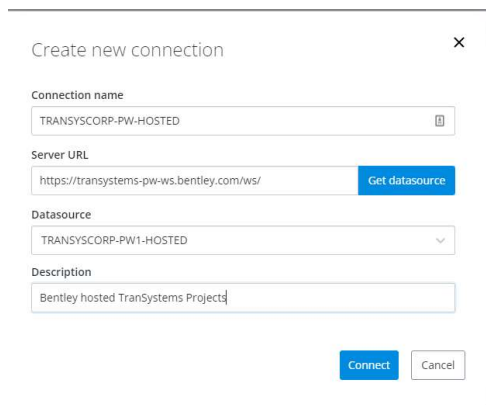

Server URL: <https://transystems-pw-ws.bentley.com/ws/>

(Select Get Datasources)

DataSource: TRANSYSCORP-PWI-HOSTED

(Select from list)

Description: Bentley hosted TranSystems Projects

Users of your organization will now be able to access TranSystems ProjectWise documents via the ProjectWise Web View - Datasources. External users are still required to have a ProjectWise user account setup by TranSystems to access these datasources. Please see our ProjectWise web page ([projectwise.transystems.com](http://projectwise.transystems.com)) for link to New User Access Request Form.
